At the close of 1942 the Society's membership consisted of:

· ·	
Honorary	9
Corresponding	. 5
Life	3
Ordinary	156
Associate	19
Free	. 1

making a total of 193 as compared with 247 in 1941, 233 in 1940, 200 in 1939 and 186 in 1938. This considerable reduction can be explained by the fact that we have to lose numerous members on account of the state of war.

During the year the Society had arranged 8 meetings, namely:
Ordinary Meetings:

- on March 1st. 1942, Professor N. Tsuda lectured on "The Japanese Buddhism;"
- on September 4th. 1942, films of old Thai ceremonies were shown by H. H. Prince Prem Purachatra;
- on December 13th. 1942, Dr. R. Hoffbauer lectured on "A Medical Retrospect of Thailand;"
- on January 18th. 1943, Professor George Coedès lectured on "The Empire of the South Seas (Śrivijaya, 6th—13th Century)."

Natural History Section's Meetings:

- on January 12th. 1942, Professor K. Shibuya lectured on "Plant Growth and Human Diet;"
- on June 26th, 1942, Dr. R. Hoffbauer lectured on "The Occurence and Appearances of the Malaria in South Thailand;"
- on January 17th. 1943, Nai Ariyant Manjikul lectured on "Glimpses of Pepper Cultivation in Thailand,"

Excursion: • 1

on September 6th. 1942, a visit was arranged by the Leader of Travel Section to the National Museum under the guidance of Nai P. Boriban Buriphan, the Curator.

The year under review has certainly been an abnormal one. Owing to unavoidable circumstances we have had to face a series of unpremeditated difficulties. All the funds formerly available having been deposited in the Hongkong and Shanghai Bank Corporation and therefore rendered impossible to be drawn upon, we have had to depend entirely upon the current year's revenue for our maintenance; our membership having been reduced for the reason as stated above, thus affecting our income in subscriptions; lectures and meetings have had to be cancelled at first owing to the local black-out, then to the high and unprecedented floods and all through by the lack of benzine and the consequent limitation of means of transportation, which factor has necessitated abandoning altogether the excursions of historical and archaeological interest so successfully carried out in 1941.

Adversity, however, did not come singlehanded and was to a pleasurably surprising extent offset by redeeming features. When all is considered, especially in comparison with the state of affairs of the Society during the days of the last Great War of 1914-1918, our position cannot be said to be unsatisfactory. We have been able to present the members with not less than eight lecture meetings, two of which were very largely attended; we have been able to issue a number of the Natural History Bulletin and a Thai number of the Journal, and had it not been for the closing down of our firm of Publishers and the difficulties of obtaining paper in the market we should have been able to publish at least another number of the Journal; as it is, Volume XXXIV, part I, is already in the press; we have had fine support from the general body of our members by way of subscriptions and their arrears; and lastly our sales of publications have been particularly good, the figure for this year amounting to Baht 1,427.70, the highest figure reached since 1935. Actually there has been a further sale of Baht 1,603.50 to Japanese members, etc., but as the remittance had not yet reached this country the sale will be included in next year's receipts.

Looking ahead then, the prospect of our Society should be considered as satisfactory, for among other schemes we hope to be able to publish no less than two more numbers of the Journal but possibly more and to be able to keep up our meetings.
