## The Siam Society

The Siam Society, under Royal Patronage, is one of Thailand's oldest and most active learned organizations. The object of the Society is to investigate and to encourage the arts and sciences in Thailand and neighbouring countries.

Established in 1904, the *Journal of the Siam Society* has become one of the leading scholarly publications in South-East Asia. *JSS* is international in outlook, publishing original articles of enduring value in English. All articles are subject to peer review. The Society also publishes the *Natural History Bulletin*.

Since its inception, the Society has collected monographs, journals, and material of scholarly interest on Thailand and its neighbours. The Society's library, open to members, has one of the best research collections in the region.

For those interested in the Society's library, lectures, tours, publications and other benefits, information is given at the end of the volume on how to become a member.
