

PROCEEDINGS OF THE SOCIETY.

3rd ORDINARY GENERAL MEETING.

This was held at the Oriental Hotel on July 14th, 15 members and 2 guests being present. The President read a paper from Mr. Boden Kloss proposing certain Zoo-geographical divisions for Siam, its object being to assist those who were not well acquainted with the country, in locating specimens recorded by members of the Society or other naturalists.

A considerable amount of discussion followed, and the matter was ultimately referred to a sub-committee, who were requested to draw up the proposed alterations, and refer them again to Mr. Kloss before publication in the Journal.

Specimens were exhibited by H. R. H. Prince Chumporn, Mr. Herbert, Dr. Smith, Mr. Gairdner and Mr. Godfrey.

4th ORDINARY GENERAL MEETING.

This was held at the offices of the Bangkok Times on December 21st, 11 members and 1 guest being present.

Mr. Herbert and Dr. Smith exhibited an interesting series of mammals, birds, reptiles and batrachians recently taken by their collectors in a expedition to the mountains at Nakon Sri Tamarat. A detailed report of this collection, when it has been fully worked out, will be published in the Society's Journal.

The following publications have been recently received:—
The Fishes of the Indo-Australian Archipelago. Vols. I and II. By Dr. Max Weber and S. L. F. de Beaufort. *The Reptiles of the Indo-Australian Archipelago*. Vol. I. (Lacertilia, Chelonia, Emydosauria). By Dr. Nelly de Rooij. *Java, Zoologisch en Biologisch*. Door Dr. Koningsberger. *Laboratorium voor Plantenziekten*.
