

A SMALL COLLECTION OF AGRIDOIDEA [ORTHOPTERA]
FROM THE AGRICULTURAL DEPARTMENT,
BANGKOK, THAILAND.

By D. Keith McE. Kevan

(Nottingham, England)

Records of Siamese Orthoptera are not very numerous in the literature so it may be of interest to note the following records of Acridoidea from Thailand, sent to me for identification by Mr. Phol Pholboon of the Department of Agriculture, Bangkok. Unfortunately our state of knowledge of some of the genera is insufficient to permit reliable determinations; paucity of material makes other determinations somewhat uncertain. I am indebted to Dr. V.M. Dirsh of the Anti-Locust Research Centre, London for the identification of species of *Acrida* and *Catantops*.

TETRIGIDAE

- Scelimena discalis* Hanc. ? - - - Lampang, 21. iv. 1939, 1 0 (*Phol*)
Scelimena india Hanc. ? - - - Chantaburi, 27. i, 1939, 1 0 (*Phol*).
